

SHUBHAY YADAV

Full Stack Developer

☎ +91-8355006651 ✉ shubhayyadav84@gmail.com 🔗 linkedin.com/in/shubhayyadav 🌐 github.com/shubhayyadav84

Summary

Second year Computer Engineering student and Full Stack Developer with hands on experience building web applications. Strong in performance optimization, backend API development, and responsive UI design. Experienced in developing scalable applications using modern technologies. Quick learner and team collaborator focused on writing clean, efficient code. Currently pursuing a MERN Stack Internship and actively seeking Software Engineering Intern roles.

Skills

Programming Languages: Java, Python

Frontend: React.js, JavaScript (ES6), Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, FastAPI (Basics), REST APIs, JWT

Database: MongoDB, MySQL, PostgreSQL

Tools: Git, GitHub, Linux, VS Code, Postman, CI/CD (Basics)

Experience

MERN Stack Internship – UptoSkills

April 2026 – July 2026

Remote

- Developing full stack applications using MongoDB, Express.js, React.js, and Node.js.
- Building REST APIs and integrating frontend with backend services.
- Working on real-world projects focusing on debugging, optimization, and scalability.
- Collaborating with team members using industry-standard workflows.

Projects

AI Tutor – AI Powered Learning Platform

- Built an AI-powered platform generating personalized video-based learning content.
- Integrated Gemini API to dynamically generate teaching scripts based on user input.
- Implemented lip-synced video generation using Wav2Lip for realistic AI instructor output.
- Developed full stack system using React.js, Node.js, Express.js, and MongoDB.
- Designed modular course system for adaptive learning.

VoiceMed – AI Voice Biomarker Health Monitoring System

- Developed AI system analyzing voice biomarkers for health monitoring.
- Extracted 12+ features including pitch, jitter, shimmer, and speech rate.
- Generated health scores and visualization dashboard for insights.
- Tech Stack: Next.js, FastAPI, MongoDB, Python.

WebShield – Web Vulnerability Scanner

- Built a security tool detecting SQL Injection and XSS vulnerabilities.
- Implemented automated payload testing and response analysis system.
- Generated reports based on OWASP Top 10.

Extra-Curricular Activities

Operations Head – Model Business Summit 2026

Feb 2026

Lokmanya Tilak College of Engineering

- Led event execution with 250+ participants and managed 12+ team members.

Technical Team Member – ISTE

June 2025 – May 2026

Indian Society for Technical Education

- Supported technical workshops and assisted in event setup and troubleshooting.

Documentation Coordinator – NSS

June 2025 – May 2026

National Service Scheme

- Managed documentation, reports, and event records for NSS activities.
- Coordinated with team members to maintain structured records and reports.

Awards & Certifications

- Apna College Delta 6.0 – Full Stack Development
- Infosys – Python Programming
- JPMorgan Chase – Software Engineering Virtual Experience

Education

B.Tech in Computer Science and Engineering

2024 – 2028

Specialization: IoT, Cybersecurity & Blockchain Technology

CGPA: 8.32/10 (Second Year)

Lokmanya Tilak College of Engineering, Navi Mumbai
